The Astro Cat Scratching Pad

ASTRO Saves the Furniture!

"Scratching is a very natural, continuous form of development for cats. We must satisfy our needs, while at the same time, they save their furnishings."

-Astro (the Cat)

Most cats prefer Astro Cat Scratching Pads over the Furniture. Why? The secret is in the box. Apart from upgraded materials, Astro is using a fine cut, high quality organic catnip. Jacques LeRouge, head of engineering, says, "Finely cut, the high grade organic catnip is lick-able, better assimilated, and much easier on the cat's digestive system, and because we seal the box in plastic, the catnip stays fresh. Cats really love it!"

Astro's Cat Scratching Pad is glued down to the inside of the box, preventing the cat from pulling it out and causing a mess, a common problem with other cat scratching pads. Conveniently, Astro Cat Scratching Pads are impregnated at the factory with the catnip, and then the box sealed in a plastic wrap to assure freshness. No fuss, no mess. Perfect every time. Boxes come in three assorted colors to complement every room. So give your cat a better alternative, and stock up on Astro Cat Scratching Pads today!

Look for Astro Cat Scratching Pads in your favorite store. If we're not yet in your favorite store or if the product is sold out, you can order online at www.AstroScratchingPad.com.
